EXPERIENCE

Wallet Hunter PVT. LTD

Sept 2024 - Present

Role - Frontend Developer | Full-time

- Developed interactive data visualization components using React, integrating libraries like recharts and @react-jvectormap/core to create dynamic bar graphs, line charts, sentiment meters, and glowing world maps with dynamic data parsing.
- Implemented dark and light mode support for multiple UI components, ensuring seamless theme adaptation based on system preferences.
- Optimized animations and transitions for charts and maps, enhancing user experience with smooth growing effects, glowing elements, and real-time updates.
- Enhanced UI/UX by implementing state management and optimized rendering in React, ensuring smooth performance and responsiveness across components.

PROJECTS

Share Sphere

- Developed a Java web application for seamless file sharing between PCs and laptops on the same Wi-Fi network.
- Implemented secure upload and download functionality for efficient file transfers.
- Ensured a user-friendly interface for easy navigation and file management.
- Focused on security and performance to provide a reliable file-sharing experience.

College Management System

- Developed a web application using HTML, CSS, and JavaScript to streamline college administrative tasks.
- Implemented features for student enrollment, course management, and grading.
- Designed a user-friendly interface for both administrators and students.
- Enhanced efficiency and organization in managing academic processes.

SOFT SKILLS

Analytical Thinking, Problem-Solving, Leadership, Team Collaboration, Adaptability

CERTIFICATIONS

Java Certification - Core2Web

C language Certification

Web Development Certification - Udemy

ADDITIONAL INFORMATION

- Good hands-on experience with Java programming.
- Sound knowledge of multiple programming languages.
- Successfully completed Zensar Employability Training Session in partnership with JSPM NTC.
- Technical Team Coordinator in ETSA.
